

Sampson County Trail of Barn Quilts

follow the art

As part of this ongoing community-wide project, each town in Sampson County has its own "signature" Barn Quit designed with unique patterns that tell the stories of the history and heritage of Sampson County.

Experience the tranquility and cultural heritage of Sampson County. Visit our website at www.visitsampsonnc.com to see our barn quilt driving trails or customize your own experience using our barn quilt mapping tool.

Agri-Tourism

This project provides us with opportunities to showcase the various aspects of agricultural production and businesses.

Agricultural Architecture & Preservation

This project will bring attention to the unique architecture and history of barns and other significant buildings in our county. By drawing attention to these assets, we hope to encourage the preservation of these structures for future generations.

Promotion of Visual Arts

The Barn Quilts of Sampson County will promote arts appreciation, encourage artistic expression, and celebrate quilting as a traditional art form.

Cultural Identity

Because Sampson County has a quilting tradition, we want to promote quilting as a form of art. By placing quilt blocks on buildings we hope to showcase the symbolism and heritage of the patterns that provided warmth and comfort for generations as well as a social outlet for Southern women.

Mission Statement

The mission of the Barn Quilts of Sampson County Project is to celebrate and promote the culture, heritage and progressive nature of Sampson County by placing quilt blocks on suitable barns and buildings throughout the county.

Economic Development

Marketing materials will be developed to encourage tourism. Emphasis will be placed on "Quilt Trails" attracting traffic off the interstate and other major roads, into smaller communities in the County to explore our rural heritage and view the many colorful quilt blocks.

Community Service

The project provides the opportunity for service groups, families, volunteers, and other residents to participate in planning, implementing and maintaining this county-wide, community project.

BARN QUILTS

OF SAMPSON COUNTY

HISTORY ~ ART ~ TOURISM ~ AGRICULTURE

cultivate your spirit

Did you know that Sampson County is the Barn Quilt Capital of North Carolina®? Since 2012, the Sampson County CVB has proudly partnered with local service groups, families, volunteers and local artists to develop this community project. Today, you'll find over 150 barn quilts dotting our rural landscape...on the barns, homes and buildings throughout the county and along our country roads. A paint-and-wood echo of the original hand-stitched heirloom we all love, this American folk art celebrates the culture, heritage and creative spirit of Sampson County.

The project continues to grow! If you would like a barn quilt or would like more information or to have your barn quilt added to the trail, please call the Sampson County Convention and Visitor's Bureau at (910) 592-2557 or email sbarefoot@visitsampsonnc.com.

Sheila Barefoot
